

**Further information on fees charged for  
the Common Auction Platform**

Date	<b>24.01.2017</b>
Place	<b>Leipzig</b>
Reference	<b>CAP2 - N.340201/2016/735829/SER/CLIMA.B.1</b>

## 1. Fees per lot won in the auctions

For all auctions of the common auction platform (hereafter referred to as “CAP2”) appointed pursuant to Article 26(1) of the Auctioning regulation, the fees per lot won by the successful bidders (exchange fee as well as clearing and settlement fee) must be set in line with the provisions of the underlying service contract between EEX, the European Commission and EU Member States (hereafter referred to as “Service Contract”, [https://ec.europa.eu/clima/tenders/2014/docs/208551/20160726draft\\_contract\\_en.pdf](https://ec.europa.eu/clima/tenders/2014/docs/208551/20160726draft_contract_en.pdf)).

Accordingly, the fees per lot may not be higher than (1) the “fee threshold” determined in accordance with Article 1.5.2(b) of the Service Contract and (2) the benchmark fee referred to in Article 51(1) of the with Commission Regulation (EU) No 1031/2010 (Auctioning Regulation) as further specified in Article 1.5.3 of the Service Contract:

(1) The fee threshold is defined as the ratio of the price for the respective period (costs for the operation of the service) and the number of allowances to be auctioned as published in the CAP2 auction calendar.

(2) The benchmark fee is defined as the comparable standard fee on the secondary market (fee on the spot market of EEX and ECC).

	Exchange fee	Clearing and settlement fee	Total
<b>Contractual fee threshold for the period 2016 and 2017</b> (€/500 allowances)			1.39 €
<b>Applicable benchmark fee</b> (€/500 allowances)			Sum of exchange fee (cf. <a href="#">EEX price-list</a> section “2.3. Price List Global Environmental Exchange GmbH”) and clearing and settlement fee (cf. <a href="#">ECC price-list</a> , section “4.3. Emissions”)
<b>Fee per lot won for the period 2016 and 2017</b> (€/500 allowances)	1.17 €	0.22 €	1.39 €

Based on the methodology outlined above, the fees per lot applicable to CAP2 auctions shall be established and published together with each CAP2 auction calendar or, where applicable, its revision. Changes of the fee threshold and/or the benchmark fee may result in the change of the fee per lot won.

In 2016 and 2017, the same level of fee per lot won will be applied (see Article 1.5.2b of the Service Contract).”

## 2. Fees for accessing the auctions (auction only membership)

Fees for accessing the auction comprises of one-off fees and periodic fees in accordance with Article 1.5.1(a) of the Service Contract. The most cost efficient way for accessing the auction is the Auction Only membership for which membership and technical access is free of charge. In case market participants are participating via different memberships, the technical access is charged separately.

Type of fee	Reference in the <a href="#">EEX price-list</a>
<b>Exchange trader mandatory training(one-off fee)</b>	
<b>Total one-off fee for auction-only access</b> (Spot market emission certificates training & exam )	0 €
