## EEX USER GUIDE – EEX JOULE SET UP

Market Operations 09.08.2024

Ref. 1.0

## 1. Introduction

This user guide is intended to provide you with an overview of the technical background necessary to run Trayport Joule Direct application on your device, with an efficient connectivity guide.

Trayport Joule stands as the comprehensive software solution designed specifically for facilitating seamless and efficient trading activities. With Trayport Joule, you have at your disposal a powerful tool that streamlines and enhances your trading experience. Whether you are a seasoned trader or just starting, this software is tailored to meet the diverse needs of traders engaged in commodities trading. Its robust capabilities encompass everything from market analysis to execution, offering a holistic solution that caters to the intricacies of trading within this specialized market.

This guide is carefully made to help you use the Trayport Joule software. It gives you clear and easy instructions on setting up and connecting to the platform. It is important to start using the software smoothly, so we made sure this guide is designed with that in mind.

Specifi	ications	Operating System	.NET Framework	СРО	RAM Available to Joule	Graphics Card (GPU)
•	Recommended Joule is capable of delivering optimal performance	Microsoft Windows 10 (64-bit)	Version 4.8 or later.	2.66 GHz or above with 6 cores and 12 threads.	More than 2GB available to Joule and more than 25% of the machine's RAM available at all times.	Better than NVidia NVS 310 video card.
٠	Minimum Joule performance may suffer. Trayport recommends upgrading any components that fall in to this category	Microsoft Windows 8.1 (64-bit)	Version 4.8.	2.66 GHz with 4 cores.	2GB available to Joule and more than 25% of the machine's RAM available at all times.	NVidia NVS 310 video card.

The prerequisites to install this application are:

## 2. Installation

To initiate the setup process, simply click on the provided link below. This will direct you to a window to configure your system and get started with Trayport Joule

https://joule.cdn.trayport.com/joule/593433d6-47a0-e111-b5f3-00155d03ae7c/050976ab-2691-469e-ab73-fe44d0fbdee3/AnyCPU/Joule.application

#### Click on Joule.application

click on "install"

	<b>6</b> 2

You are now done with the installation of Trayport Joule Direct.

## 3. Connection

The image below showcases the application's connection window. To begin the connection process, enter your credentials, including your username and password, along with the server name which is **montmartre2.powernext.fr** if you trade only EEX Spot, or **jouledirect** if you trade both Spot and Derivatives.

This information is crucial for establishing a secure and successful connection to the Trayport Joule platform. Refer to the screenshot for a visual guide on where to input these details, ensuring a smooth initiation of your trading activities.

Your credentials should have been provided to you by EEX Gas Market Operations team. If not, please contact us at gas@powernext.com or +33 1 73 03 96 24.

# Import the 'EEX Joule' template (for member connecting to montmartre2.powernext.fr only)

Click on the Joule main menu on the upper left side, then Import/Export.
