

## Introduction of T7 release 7.1 on 27<sup>th</sup> May 2019

Dear trading participant,

The EEX Derivatives Trading System Eurex T7 will be updated to version 7.1 on 27<sup>th</sup> May 2019, in line with the Eurex Exchanges' release cycle. In the framework of the release, interface changes will take place which are described in more detail in Eurex system documentation.

EEX will ensure the compatibility of the supported trading frontends Trayport Joule© and EEX TT Screen.

T7 version 7.1 is available for simulation already. For further details, please see the T7 simulation calendar.

Yours sincerely,

EEX Market Operations
