

## UPDATE - Introduction of Order Rate Limit on EEX Gas Spot Markets

Dear Trading Participant,

EEX will reschedule the introduction of the Order Rate Limit to its Gas Spot Markets, initially planned on 8 February, to 8 March 2022 during the monthly maintenance window.

In addition to this, please note that we will increase the number of orders' updates.

Originally set for 100 actions in a rolling 5-second window, it will be increased to :

**200 actions per 5 seconds** for all users within the company across all Spot markets.

This will enable you to complete your tests and achieve a smooth operational readiness.

Please refer to the Customer Information of 14 December 2021\* to check the order actions that can be subject to order rate limiting.

Do not hesitate to contact us if you need credentials for your tests and/or if you have any questions.
