

## Adjustment of Mistrade Ranges for Power Short-Term Products

Dear trading participant,

in the following we would like to inform you about changes of the currently valid mistrade ranges for Power short-term products. As of **1 November 2023**, EEX will introduce an absolute floor for all Power Day, Weekend and Week futures.

The relative ranges continue to apply as long as a minimum absolute range of 3 EUR (normal market situation), 5 EUR (stressed market situation) and 10 EUR (extended stressed market situation) is not undercut. In case the relative ranges would go below the lower limit, then automatically the absolute ranges apply.

The current relative range of 3.5 percent (Segment A) and 5.0 percent (Segment B) for all Power Day, Weekend and Week products remains unchanged.

Please do not hesitate to contact us in case of any further questions.

Yours sincerely,

EEX Market Operations
